

Quadrophonic

t8

Inventor: JVC **Year:** ~1970

Maybe directly built into the apartments walls, if you would play a **gun-shot sample** (see card m21) you could drive the victim paranoid. Quadrophonic or even Octophonic in building with multiple floors would cause the mind to interpret the sounds as authentic and **make neighbours fight each other**

Building ControlUnit with 1990 Technology:

2x Gravis Ultrasound Stereo
2x Sound Blaster Stereo
4x LPT && JDAC / CENT_DAC (see t9 card)

For Therapy (a2 Card). But unfortunately also to make people aggressive to force them to fight against each other :-(

Antenna (Wasserflue)

t26

Inventor: xxxxx **Year:** ~????

As seen in Battle Filed Bad Company 2, the m-com-station is shown as small box, but it would be more likely that these are big antennas like the one on the "Wasserflue" (in Küttigen near Aarau)

Maybe one should find out the power the antenna uses and how strong the "drum-antennas" are and if it would be enough power to activate implants (maybe just a golden wire with lambda/4n (other Antenna card) to drive people insane or even drive tobias moser to commit suicide with his military weapon (as far as we heard)

NOT YET PROOVEN

Group Policies

t31

Inventor: xxxxx **Year:** ~????

On Windows you can deploy group policies to a complete domain. People that are some sort of wannabe hitlers would enjoy it to impose their will upon others. I felt also cool when i was about 25 Years old that i am the "Master" but in fact i was just the scapegoat. Not quite sure if those who deploy things like a16, m50... to people or to a complete group of people are just older people that are using some similar software or if eg m50 card is deployed on all domains, eg by the NSA/CIA/DSMW.

Giving a young whitehat hackers drugs like zyprexa or illegal drugs (GPS Matrix Red and Blue Pill) would let them to think, i must have been infected when i ate this.

Industrial Automation

t33

Inventor: xxxxx **Year:** ~????

If a person has to do all day the same, it is likely that these moves are burnt into his psyche (not even an implant required) if you would give a stimulus (eg. high noise sound at 15kHz, 16kHz, 17kHz...) you could link this move to a stimulus. t2, t11, formula see m/6 Card.

So it would be likely that not only people like me that worked in robotics (t22 Card) are affected.

It would be the same like m70 card or in combination with m70 card.

Microwave Hearing (Frey Effect)

t12

Inventor: Allan H. Frey (Cornell Uni) ~1961

"He Hears non-existent voices, hahaha". **invisible** communication channels, **pulsed microwaves** received directly by the cochlea. The exact frequency found by scanning through the possible frequencies, if the victim puts his hand to his ear ("tinnitus"); **Automatic Behavior Recognition**. Was 30 Years not patented until 1989 under **US4877027**. Technically it would have been possible to do this maybe already with electron tubes (~ 1900). Psychological Perspective: people that abuse such technology would keep that secret and previously labeled as a "Schizophrenic" the victim is completely defenseless and it is likely they induced **suicide** or **amok**. In combination with e.g. a loop recorder, see also co2 Card, the perpetrators often caused permanent damage in the psyche of their victims; **PTSD** (#Verdingkinder / #Schwabenkinder / #Slaves)

EventTrigger

t14

Inventor: ?????? **Year:** ~????

Specific Events can trigger Actions, GPS Data, Data from acceleration sensors in handles (for example specific roller coaster) Events could be Sounds, turning on Light-Switch (maybe evaluated by smartmeter and the a list of what device uses how many watts), images, Automatic Behavior Recognition, websites (urls), Buttons or Mouse gestures on a computer, Handy or even if you draw a circle with your hand in the air. One can recognize events with AI (Pattern Recognition, Deep Learning...)

For Example if Jürg S. would have fired illegally with a weapon, this event would have been recorded and caused an event in a Gunfire locator system [1]. Concerning Urs B. (statement not verified yet) are the 1960s those who programmed the triggers against marc jr landolt, after they programmed those triggers they run in auto-pilot mode and they cant delete it (auto-pilot = allegation)

Skinner Box

t2

Inventor: B. F. Skinner **Year:** ~1960

Over electrodes on the floor he could give the mouse **electroshocks** = **punishment** / **create aversion** @ By pressing the Button the mouse was rewarded with a biscuit = **reward** / **incentives** @ a2 card Skinner searched for sequences of **incentives** and **punishment** to completely remotely-control test-object" caused long-term damage. If you are being subject to such experiments talk about the details with equal aged people you trust. If you tell eg the Police they just diagnose you eg Schizophrenic and would put you in a mental institution where historically a lot of such illegal human experiments were made. eg. Burghölzli. I guess today (2019) the abuse refugees, #Verdingkinder, #Schwabenkinder, not loved Childrend (often the oldest male), Soldiers, ... generally people nobody cares about, we as a society should act and leak what we know about.
