THE MATRIX (now hacked)
To deny our own impulses is to deny the very thing that makes us human

While ago there was a website called **debris-x.org**. I ended up on this page not because I was searching for porn (images were only 200x100 Pixel) I was searching for psychological knowledge to find out what they did to me in early childhood. I found out that there is a concept called **Sexualitätsdispositiv** (German). "In Foucault's theory of social power, sexuality occupies a central position". (Unfortunately also Military "use") By prohibiting the instinct (they promise that they would end the Dispositif) they impose you to do things you would otherwise not do. They also call some young boys rapist terrorists (m41) and attack them equal aged girls (against their sexual integrity) and often blame the young "rapist terrorist" for that. All the equal aged friends would attack the "rapist terrorists" (m37 Card). What the friends may not realize is that with **m37 card** they have frightened myself in a **virtual chastity belt**. To Quote House from "The Matrix": "To deny our own impulses is to deny the very thing that makes us human. Remember not to join the dark side. **do only consensual things and only with equal aged people!**"

While ago there was a website called debris-x.org. I tend to think it was created by a person who had been on this page not because I was searching for psychological knowledge (I'm not) but because I was looking for a way to find out what they did to me in early childhood. I found out that there is a concept called **SexualizedDispositiv** (German). In Foucault's theory of social power, sexuality occupies a central position. (Unfortunately also Military "use". By prohibiting them to impose their promise that they would end the Dispositiv they also deny that they would otherwise not do. They also deny that all young boys rapist terrorists (m41) and attack themselves against young girls (against their sexual integrity) and often blame the victims as well as the rapists for that. All the equal aged friends of mine who were young "rapist terrorist" (m37 Card). What the friend of mine who attacked the "rapist terrorist" (m37 Card), maybe not realize is that with m37 card they have tightened themselves in a **virtual chastity belt**. To Quote Mouse from "The Matrix": "To deny our own impulses is to deny the very thing that makes us human. I have often the situation, that the system begins to match things normally do not match in my worldview / mainframe. For example Apple does normally not match ball (similarity: 0.5) since my brain would match above 0.8. There are times where the parameter is lower, so ball and apple matches though. I guess this is not a cyber attack, **they** just link small kids that are less differentiated to me. But maybe they were **mistrusted** while before, **so it could be a pedophile Joseph Mengele that tortures kinds and then links them to me**. So I try to be the (German) **ErklärBär**, but if they have sexual questions I always say "This you need to find out and answer with your equal aged people, decide ans select "the one" wisely. And it would be pedophile from me if i would touch this part of your psyche or answer you such things because you are much younger."
